SPECIAL ANNOUNCEMENT:
HANCOR SURE-LOK® PIPE
NOW APPROVED IN OLDHAM COUNTY
FOR STORMWATER APPLICATIONS

BLUE STRIPE: LEADING THE WAY.

See details inside.

STRENGTH AND DURABILITY BY DESIGN

Hancor Sure-Lok Corrugated High Density Polyethylene (HDPE) Pipe is the ideal choice for roadway drainage systems. HDPE pipe is approved for Oldham County's stormwater applications.

ENGINEERED TO OUTPERFORM

HIGH PERFORMANCE JOINTS:

Hancor Sure-Lok and Blue Seal® pipes are available with both soil-tight and water-tight joints that meet or exceed ASTM standards.

OUTSTANDING VALUE:

Sure-Lok pipe has many performance advantages over traditional pipe... at a fraction of the cost.

SUPERIOR ENGINEERING:

Sure-Lok pipe is engineered to outperform and outlast traditional pipe materials. It offers abrasion resistance and won't rust or corrode like concrete or steel.

ADVANCED DRAINAGE APPLICATIONS:

Hancor Sure-Lok pipe is used for cross drains, side drains, storm sewers, culverts, landfills and other installations across the country. It's available in a wide range of sizes from 4" to 60" diameters for flexibility in all your projects. The Oldham County Engineering Department now approves Sure-Lok for stormwater applications

EASY INSTALLATIONS:

Its rugged, lightweight design makes Sure-Lok easier and more cost-effective to install. It requires fewer people, less time and less heavy equipment to install compared to concrete pipe installations. It all adds up to lower installation costs.
